## DEPARTMENT OF MANAGEMENT STUDIES

### Field Study

Field Visit Bridge the gap between classroom theoretical training and practical learning in a real-life environment. It provides an opportunity for students to ask questions related to their area of interest. With regular industrial visits, the students are able to identify their prospective area of work like marketing, finance, logistics, etc. This also gives students a platform to enhance their interpersonal skills. The students get to see the best practices opted by different companies for similar work. The main objective is to increase the awareness of industry practices and regulations during field study exercises.
