DEPARTMENT OF MANAGEMENT STUDIES

KEY TAKEAWAY FROM THE SESSION

- An overview of anticipated revenue sources and how they relate to scheduled expenses is provided in the revenue and expenditure section.
- Budget Priorities: Outlining the major sectors that will receive funding attention in the next fiscal year, such as infrastructure, healthcare, and education.
- Budgetary Allocations: The precise distribution of funding among various offices, projects, or programmes.
- Financial goals are any targets or objectives related to managing finances, such as saving more money, investing in areas of growth, or lowering deficits.
- Economic Outlook: A discussion of the overall state of the economy and how it might affect the budget, taking into account things like employment patterns, GDP growth forecasts, and inflation.
- Efficiency Measures: Strategies for improving the efficacy and efficiency of spending, such as possible cost-cutting plans or process simplifications.
- Debt management techniques include ways to appropriately manage current debt and, if needed, take on new debt.
- Reserves & Contingencies: Talk about any reserves put away for unforeseen costs or emergencies, as well as any existing contingency plans.
- Public Feedback and Accountability: Recognition of public participation in the budgetary process along with a dedication to accountability and openness in the financial management process.

DEPARTMENT OF MANAGEMENT STUDIES

- Long-term planning is any thought process or action taken to guarantee that finances will continue to be stable after the next fiscal year.

Above image represents, the finance budget serves as a strategic planning tool, facilitating the setting of clear financial objectives and efficient resource allocation. It enables organizations to evaluate their performance by comparing actual results with budgeted figures, guiding decision-making processes, and communicating financial priorities to stakeholders.

Above image represents, the defense budget is a crucial aspect of a nation's financial planning, serving as a means to allocate resources towards national security and military capabilities. It encompasses various expenses related to personnel, equipment, research, development, and operations necessary for maintaining a strong defense posture.
